

# The project which makes the European citizenship go forward

The project

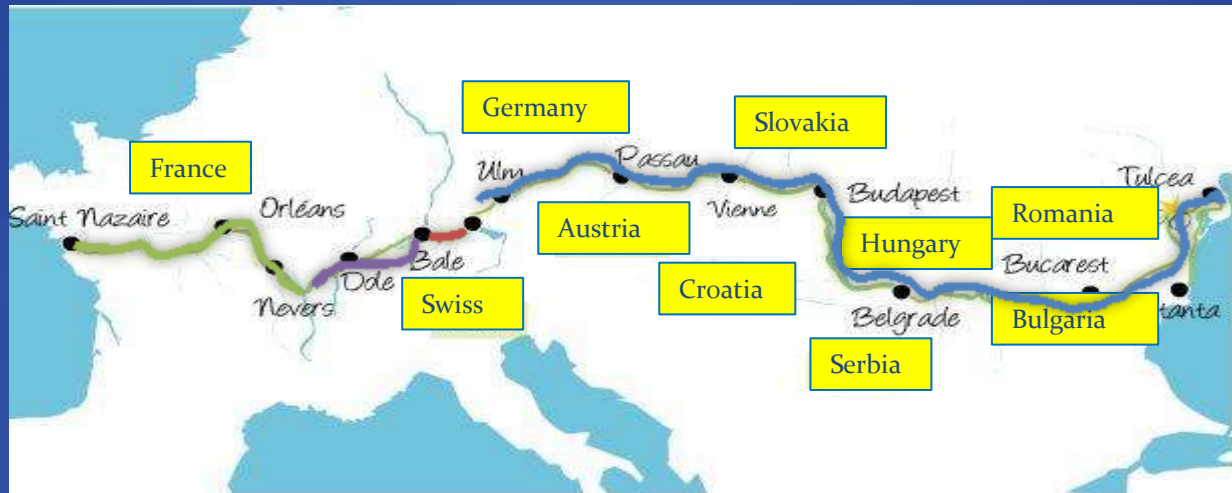

## EUROVELO

Organizing a Relay Bike Raid on the Eurobike route n° 6:

Classes of various European countries are going to succeed one another on this route by studying the notion of European citizenship

10 European countries will be represented by a class of pupils (25 pupils and their guides) along the 4500 km of these three big European rivers, melting pots of the European civilization

The participants will have to share and to exchange their experiences during a meeting at the European Parliament and on the website of this project

The route

# EUROVELO

For 12 weeks, on 12 sections, 12 classes are going to take over one another on this more than symbolic route of the European construction
